Overall Height:

71.150 inches

Overall Width:

66.190 inches

Assembly Form:

Assembled

Closure Method:

Hinged cover

Door:

Provided

Outer Door Quantity:

2

Special Features:

Front door for cleaning, specimen access door; interchangeable furnace assembly; easy change from horizontal to cone furnace; photo detector and radiometer; chamber pressure continuously monitored and digitally displayed on control panel; automatic over-pressure relief system; safety pressure relief blow-out panel; powered positive venting of smoke effluents after test; data acquisition system

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-e
