Capacity Rating:

50.000 milliliters

Calibration Function:

To contain

Features Provided:

Disposable

Primary Container Type:

Package

Primary Container Unit Quantity:

100

Special Features:

Graduated; translucent; withstands temp to 250 deg. F.; can be sterilized and steam autoclaved for reuse

Material:

Plastic, polypropylene

Material:

Plastic polypropylene

Style Designator:

High w/spout

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24200
