**Capacity Rating:**

50.000 milliliters

**Calibration Function:**

To contain

**Features Provided:**

Disposable

**Primary Container Type:**

Package

**Primary Container Unit Quantity:**

100

**Special Features:**

Graduated; translucent; withstands temp to 250 deg. F.; can be sterilized and steam autoclaved for reuse

**Material:**

Plastic, polypropylene

**Material:**

Plastic polypropylene

**Style Designator:**

High w/spout

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A24200
