Capacity Rating:
50.000 milliliters
Calibration Function:
To contain
Features Provided:
Disposable
Primary Container Type:
Package
Primary Container Unit Quantity:
100
Special Features:
Graduated; translucent; withstands temp to 250 deg. F.; can be sterilized and steam autoclaved for reuse
Material:
Plastic, polypropylene
Material:
Plastic polypropylene
Style Designator:
High w/spout
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A24200
