Unit Package Quantity:

10

Features Provided:

Disposable

Hydrogen Generation Method:

Sodium borohydride tablet

Product Name:

Generator gas envelope sodium borohydride tablet disp 10s

Special Features:

For production of a carbon dioxide-enriched atmosphere of approximately 5 to 10 pct; envelope is activated by the addition of water which passes through a series of channels to a filter paper wick; the wick regulates flow of water to the gas generating tablet in the tablet chamber providing a controlled release of gas; each envelope contains 1 sodium bicarbonate plus citric acid tablet and 1 piece of filter paper; unit q type 10

Unit Package Type:

Envelope

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T396-g
