Inside Depth:

10.0 millimeters

Liner:

Furnished

Liner Material:

Foil, metallic

Size Designator:

22

Thread Diameter:

22.0 millimeters

Special Features:

White, opaque, smooth outer surface for use in scintillation counting machine

Specification Or Standard:

20 ml size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T116-c
