| Overall Depth:                               |
|--|
| 11.000 inches                                |
| Overall Height:                              |
| 14.500 inches                                |
| Overall Width:                               |
| 10.000 inches                                |
| Voltage Rating:                              |
| 120.0 volts                                  |
| Power Rating:                                |
| 1510.0 watts                                 |
| Heating Method:                              |
| Electrical                                   |
| Special Features:                            |
| Operating temp 1900 degrees f max; 12.6 amps |
| Shelf Life:                                  |
| N/a  |
| Unit Of Measure:                             |
|  |
| Demilitarization:                            |
| No   |
| Fiig:  |
| T269-e                                       |
|  |
