Handle Type:

Wire loop

Tip Type:

Round

Material And Location:

Rhodium and platinum alloy,

Size Designator:

0.91 millimeters

Product Name:

Loop inoculating laboratory quantitative 0.01ml

Special Features:

Shank length 50.0 mm or 75mm; inside diameter of loop 4.0mm, delivers 0.01ml sample

Precious Material:

Rhodium and platinum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-g
