Overall Height:

24.000 inches

Overall Width:

16.000 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Voltage Rating:

115.0 volts

Power Rating:

1500.0 watts

Tube Quantity:

1

Heating Unit Quantity:

1

Special Features:

O/a dp 30 in; ceramic-coated work coil protected by cage; power unit and oscillator each mounted on sliding drawer; quartz combustion tube w/built-in oxygen jet, cloth filler dust trap, sulfur trap filled w/manganese dioxide, small plug-in catalyst furnace, 3-wire cord and plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-g
