Overall Length:

6.000 inches

Capacity Rating:

3.000 milliliters

Calibration Function:

To deliver

Features Provided:

Bulb and disposable and nonsterile

Primary Container Type:

Box

Scale Graduation Unit:

0.2 milliliters single interval single scale and 0.1 milliliters single interval single scale

Primary Container Unit Quantity:

500

Graduation Marking Method:

Molded

Special Features:

One piece bulb and stem; one squeeze draws 3 mil.

Material:

Plastic, polyethylene

Material:

Plastic polyethylene

Style Designator:

Volumetric transfer type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
