Width:

165.1 millimeters

Length:

135.000 feet

Usage Design:

Tracing

Line Color:

Red

Ruling Division:

100.0 mm graduated graph area; 25.0 mm printing area

Special Features:

Heat sensitive; black tracing on white paper; provides readability of patient data and the tracing of electrophoretic separations; used with quick scan and auto scan densitometers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T149-a
