**Inside Diameter:**

15.000 inches

**Overall Height:**

12.500 inches

**Overall Width:**

15.250 inches

**Current Type:**

Ac

**Frequency Rating:**

50.0 hertz and 60.0 hertz

**Depth:**

482.6 millimeters

**Operation Method:**

Electric

**Maximum Speed Rating In Rpm:**

4000.0

**Guard Bowl:**

Included

**Furnished Controls:**

Speed control; tachometer; timer; power switch; brake switch

**Product Name:**

Centrifuge laboratory 120/230 v 50/60 hz ac 4000 rpm

**Voltage In Volts:**

120.0 or 230.0

**Phase:**

Single

**Special Features:**

General purpose; aluminum guard bowl; brake; solid state electronic speed control and automatic timer; w/front panel controls, transparent cover and safety latch; w/24 place fixed angle rotor and cres shields to accommodate 5, 7, 10 and 15 ml test tubes

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T149-c
