Inside Diameter:

15.000 inches

Overall Height:

12.500 inches

Overall Width:

15.250 inches

Current Type:

Ac

Frequency Rating:

50.0 hertz and 60.0 hertz

Depth:

482.6 millimeters

Operation Method:

Electric

Maximum Speed Rating In Rpm:

4000.0

Guard Bowl:

Included

Furnished Controls:

Speed control; tachometer; timer; power switch; brake switch

Product Name:

Centrifuge laboratory 120/230 v 50/60 hz ac 4000 rpm

Voltage In Volts:

120.0 or 230.0

Phase:

Single

Special Features:

General purpose; aluminum guard bowl; brake; solid state electronic speed control and automatic timer; w/front panel controls, transparent cover and safety latch; w/24 place fixed angle rotor and cres shields to accommodate 5, 7, 10 and 15 ml test tubes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T149-c
