Carrying Case:

Not provided

Unit Package Quantity:

10

Unit Type:

Immediate consumption

Hydrogen Generation Method:

Sodium bicarbonate and citric acid charge used to generate carbon dioxide; sodium borohydride charge

Special Features:

Envelope w/wick; filter paper provided in each envelope has built-in anaerobic indicator; 5 pounds, (2268 grams)

Unit Package Type:

Package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T396-g
