Mounting Type:

Feet

Overall Depth:

14.000 inches

Overall Height:

45.000 inches

Overall Width:

33.000 inches

Current Type:

Ac

Frequency Rating:

50.0 hertz and 60.0 hertz

Accessory Components And Quantity:

Q baffle 1; low water cutoff

Voltage Rating:

120.0 volts and 240.0 volts

Power Rating:

13.0 kilowatts

Condenser Type:

Overhead tube

Heating Method:

Electrical

Load Capacity:

19.0 liters per hour

Distilling Unit Quantity:

1

Low Water Automatic Heater Shut-off:

Included

Product Name:

Distilling apparatus lab water elec heated 19l 120/240v50/60hz

Phase:

Single

Special Features:

Counter mounted

Material:

Brass and bronze and copper and steel, stainless

Material:

Copper alloy and copper alloy and copper and stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T269-e
