Functional Description:

Designed to enable an efficient short time condensation of solute

General Description:

115.0vac, 50/60hz; 7.625 in. W, 6.250 in. D, 4.875 in. H; 23.0 lb; motor: 0-199rpm, digital display, induction motor; fluorine rubber, fluorine resin sealing gasket; water bath: ambient plus 5.0deg c to boiling temp setting range, 2.0 cu ft bath capacity; 1-999 min timer; microprocessor control of flask revolutions, heating temp, lifting of flask, and condensation time

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
