Overall Height:

318.0 millimeters

Overall Diameter:

262.0 millimeters

Inside Diameter:

165.0 millimeters

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Inside Depth:

114.0 millimeters

Operating Temperature Range:

+50.0/+350.0 degrees celsius

Voltage Rating:

115.0 volts

Product Name:

Bath, calibration, temperature

Special Features:

Temp stability +/-1 degrees c; airflow 42.0 liters per min; weight of medium 9.0 kg; heat up time 90 min to maximum from 20 degrees c; cooling time 120 min to 200 degrees c from max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-j
