**Current Type:**

Ac

**Volt-ampere Rating:**

3.5 or 7.5

**Product Name:**

Cell wash system 110/220v 50/60hz 7.5/3.5 amps 19x12.50x27.50"

**Exterior Container Weight:**

150.00 pounds

**Voltage In Volts:**

230.0 or 115.0

**Exterior Container Cubic Measure:**

21.15 cubic feet

**Exterior Container Quantity:**

1

**Special Features:**

Includes integral fixed oscillation rate mixing platform with four magnets for securing primary collection bag to shaker platform; built-in 30-min ute timer, graduated in one minute intervals; 45 in. (114.3 cm) high pole stand with four adjustable support hooks for suspending iv type solution bags, a means of suspending blood cell collection recovery pact, 6515-01-235-6088 and waste receptable bag. 5800 rpm fixed centrifuge speed: requires no more than 1500 ml of wash solution: allows two red blood cell unit washes per bowl wash and waste bag set, 6640-01-234-9582: for frozen blood washing solution, order 6505-01-234-9583: for use in high glycerol freezing protocols

**Frequency In Hertz:**

50.0 or 60.0

**Unit Of Issue Cube:**

21.15 cubic feet

**Unit Of Issue Weight:**

150.00 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T107-f
