Current Type:

Ac

Volt-ampere Rating:

3.5 or 7.5

Product Name:

Cell wash system 110/220v 50/60hz 7.5/3.5 amps 19x12.50x27.50"

Exterior Container Weight:

150.00 pounds

Voltage In Volts:

230.0 or 115.0

Exterior Container Cubic Measure:

21.15 cubic feet

Exterior Container Quantity:

1

Special Features:

Includes integral fixed oscillation rate mixing platform with four magnets for securing primary collection bag to shaker platform; built-in 30-min ute timer, graduated in one minute intervals; 45 in. (114.3 cm) high pole stand with four adjustable support hooks for suspending iv type solution bags, a means of suspending blood cell collection recovery pact, 6515-01-235-6088 and waste receptable bag. 5800 rpm fixed centrifuge speed: requires no more than 1500 ml of wash solution: allows two red blood cell unit washes per bowl wash and waste bag set, 6640-01-234-9582: for frozen blood washing solution, order 6505-01-234-9583: for use in high glycerol freezing protocols

Frequency In Hertz:

50.0 or 60.0

Unit Of Issue Cube:

21.15 cubic feet

Unit Of Issue Weight:

150.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-f
