Capacity Rating:

50.000 microliters

Calibration Function:

To deliver

Color Coding:

Green

Features Provided:

Tip ejector

Primary Container Type:

Package

Primary Container Unit Quantity:

1

Graduation Marking Method:

Engraved

Special Features:

Hand-held air displacement pipet; utilizes disposable tips; lightweight; streamline design; automatic d-tipper ejects used tip; calibration is accomplished by turning small key in push-button end of pipet; retains adjustment until re-set; range of adjustment is plus or minus 10 percent of stated volume engraved on the pipet bonnet; quad ring piston seals provide low force sample delivery; lubricated button plunger "o" ring and special mainspring center bushing assures a lifetime of smooth operation; pipet nozzle insert is easily removed for cleaning or replacement; color coding identifies pipet by volume size; ideal when working with serum where viscosity and specific gravity differ from distilled water; stacked tip number p5064-902

Material:

Aluminum alloy and stainless steel

Style Designator:

Disposable tip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
