Gas Envelope Generator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6640-01-270-1531

Unit Package Quantity:
25
Accessory Components And Quantity:
ncubation pouches interal reagent sachets w/anaerobic indicator strips 25; liquid activating reagent packets 25
Features Provided:
mmediate consumption unit type
Hydrogen Generation Method:
Any acceptable
Product Name:
Generator gas envelope immediate consump anaerobic indic strp25s
Special Features:
Activated w/single activating reagent packet, each sachet will generate a caebon dioxide-enriched, anaerobic ennvironment within a sealed
gaspak pouch; used for culturing anaerobic organisms
Unit Package Type:
Package
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
Г396-g
