Overall Length:

5.750 inches

Capacity Rating:

2.000 milliliters

Features Provided:

Controlled drop size and disposable and flexible bulb and gas sterilizable and graduated to tip

Primary Container Type:

Package

Primary Container Unit Quantity:

500

Product Name:

Pipet transfer plast polyeth freezable heat seal radia steri500s

Special Features:

Heat sealable; freezable; radiation sterilizable; ideal for blood banking

Material:

Plastic, polyethylene

Material:

Plastic polyethylene

Style Designator:

Transfer one piece w/molded bulb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
