Overall Length:

8.187 inches

Overall Height:

2.312 inches

Overall Width:

3.375 inches

Current Type:

Dc

Operation Method:

Electric

Maximum Speed Rating In Rpm:

11500.0

Product Name:

Centrifuge laboratory 11500 rpm electric dc 9v 8.2x3.4x2.3"

Voltage In Volts:

9.0

Special Features:

Microhematocrit; powered by six 1.5 volt size c manganese-alkali batteries; may operate on 115 vac, 60 hz by use of a power supply; 6640-01-070-1500; internal control for battery checks; programmed configuration time of 3 minutes; 20 seconds at 11500 rpm

Departure From Cited Document:

Peacetime demand obtain

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-c
