**Overall Length:**

8.187 inches

**Overall Height:**

2.312 inches

**Overall Width:**

3.375 inches

**Current Type:**

Dc

**Operation Method:**

Electric

**Maximum Speed Rating In Rpm:**

11500.0

**Product Name:**

Centrifuge laboratory 11500 rpm electric dc 9v 8.2x3.4x2.3"

**Voltage In Volts:**

9.0

**Special Features:**

Microhematocrit; powered by six 1.5 volt size c manganese-alkali batteries; may operate on 115 vac, 60 hz by use of a power supply; 6640-01-070-1500; internal control for battery checks; programmed configuration time of 3 minutes; 20 seconds at 11500 rpm

**Departure From Cited Document:**

Peacetime demand obtain

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T149-c
