Inside Diameter:

15.000 inches

Overall Height:

12.500 inches

Overall Width:

15.250 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Depth:

482.6 millimeters

Operation Method:

Electric

Maximum Speed Rating In Rpm:

4000.0

Guard Bowl:

Included

Furnished Controls:

Timer, tachometer, brake and power switch

Product Name:

Centrifuge lab 4000 rpm electric ac 220v 50-60hz w/timer 15" id

Voltage In Volts:

220.0

Phase:

Single

Special Features:

Safety latch; deployable medical item-electrical characteristics and provisioning

Departure From Cited Document:

Peacetime demand obtain

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-c
