Current Type:

Ac

Accessory Components And Quantity:

Integral mixing platform-1; magnets; built-in 30 min. Timer graduated in 1 min. Intervals; 45 in. High pole stand-1; support hooks-4; waste receptacle bag-1

Product Name:

Blood cell washer: 120/230v 50/60hz ac

Voltage In Volts:

120.0 or 230.0

Special Features:

5800 rpm fixed centrifuge speed, requires no more than 1500 ml of wash solution; allows 2 red blood cell unit washes per bowl; for use with blood cell collection recovery pack, 6515-01-235-6088 and waste bag set 6640-01-234-9582; for frozen blood washing solution, order 6505-01-234-9583; for high glycerol freezing protocols

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-f
