Overall Length:

16.625 inches

Overall Diameter:

7.250 inches

Grid Markings:

Not included

Filtering Area:

97.0 square centimeters

Special Features:

Ymatld stainless steel, aluminum, polypropylene, and polytetrafluoroethylene; flow cap 0.7 kg/cm typical at 10 psi; 1.5 liter extension barrel reservoir; used for separating solids from hazardous waste liquids on a continuous flow basis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-b
