Overall Length:

6.000 inches

Capacity Rating:

5.000 milliliters

Features Provided:

Disposable and sterile and graduated to tip and bulb

Primary Container Type:

Package

Primary Container Unit Quantity:

500

Special Features:

Hmolded one-piece; inert to biological fluids and most acids; can be sealed and refrigerated for sample storage; barrel has raised 0.25ml graduations to 1.0ml; single squeeze draws up to 3.5ml capacity

Material:

Plastic, polyethylene

Material:

Plastic polyethylene

Style Designator:

Transfer one piece w/molded bulb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
