Overall Length:

6.080 inches

Capacity Rating:

5.000 milliliters

Features Provided:

Nonsterile and clear

Primary Container Unit Quantity:

1

Total Primary Container Quantity:

5000

Special Features:

Immunochemistry applications type; 6.7 diameter barrel; 24-26 drops per ml., graduated

Material:

Plastic polyethylene

Style Designator:

Large tip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24200
