Overall Length:

9.000 inches

Design Designation:

Pasteur

Calibration Function:

To deliver

Features Provided:

Disposable

Primary Container Type:

Box

Primary Container Unit Quantity:

250

Total Primary Container Quantity:

1

Product Name:

Pipet bacteriological pasteur glass m2 9in lg disp 250s

Exterior Container Weight:

8.00 pounds

Exterior Container Cubic Measure:

0.600 cubic feet

Exterior Container Quantity:

4

Special Features:

Capillary nonvolumetric pipet with constricted top for cotton plugging; for use in virus, bacteriology, immunology, hematology, blood bank and clinical laboratory

Material:

Glass, flint

Material:

Glass, flint

Style Designator:

Pasteur

Unit Of Issue Cube:

0.13889 cubic feet

Unit Of Issue Weight:

2.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
