**Overall Height:**

10.000 inches

**Current Type:**

Ac

**Frequency Rating:**

50.0 hertz

**Overall Diameter:**

8.000 inches

**Accessory Components And Quantity:**

12 place rotor which can accomodate from 10 x 75 mm to 12 x 75 mm tubes (not provided).

**Universal Medical Device Nomenclature System Code:**

10780

**Operation Method:**

Electric

**Maximum Speed Rating In Rpm:**

3400.0

**Guard Bowl:**

Included

**Furnished Controls:**

High/low speed switch; electric timer; brake switch; lid safety switch.

**Product Name:**

Centrifuge laboratory 3400 rpm 110/220 v 50hz ac single phase

**Voltage In Volts:**

110.0 and 220.0

**Phase:**

Single

**Special Features:**

Portable; for blood grouping, cross matching, coombs test, and other cell washing procedures.

**Supplementary Features:**

Note to requisitioner: for replacement 12 place rotor order nsn 6640-00-445-1609 and for replacement 6 place rotor order nsn 6640-01-162-2949.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T149-c
