Product Name:

Testing set milk pasteurization 110v 60cycle microprocessor

Special Features:

110 volt, 60 cycle microprocessor based milk tester control w/10 turn digital potentiometers, digital readout and printer; c/o: 2-type 2daf1.5" sanitrodes with two 4 in. Long probes (for 1.5 in. Hex nut and union ferrule); 2-type 2daf2" sanitrode with two 4 in. Long probes (for 2 in. Hex nut and union ferrule); 2-type 2j1.5" jacks with 10 ft. Of cable; measures short time pasteurization periods to 1/100 of a second accuracy; army no. 6640-00-c02-4423

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-a
