End Application:

For use with nsn 6640-01-462-3358, cryostat-microtome

Product Name:

Cryo-vac-away system

Special Features:

Adapts to virtually all cryostats; a nozzle at the blockface removes trimming debris as it is generated; the debris is trapped in the cryo-vac filter and pathogens are captured in the bacterial cryo-filter inside the cryostat, substantially reducing the biohazard risks associated with sectioning infectious material; the cryostat remains spotless

Shelf Life:

N/a

Unit Of Measure:
