Overall Length:

31.000 inches

Overall Height:

12.750 inches

Overall Width:

21.375 inches

Product Name:

Laboratory cyanoacrylate chamber

Special Features:

Butane heater; manual temperature control; 16 oz. Fuming compound; 100 dispersal pads; fuming tray; 8 oz. Mega-print spray

Functional Description:

Chamber is used with fuming process, to process latent fingerprints

Material:

Stainless steel and plastic and aluminum

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
