Overall Length:

26.000 inches

Overall Height:

15.875 inches

Overall Width:

26.000 inches

Voltage In Volts And Current Type:

220.0 ac

Product Name:

Dfo development control chamber

Special Features:

Digital temperature readout; automatic temperature control shuts off at 220 degrees f; electric heater accelerates fingerprint process; chamber is black in color; tempered glass door

Functional Description:

Chamber is used with dfo sprays to process fingerprints

Material:

Nickel alloy

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
