Product Name:

Condenser lab evaporation adj rotation spee (5-240rpm) 20x15x24in

Special Features:

Condenser, evaporation; adjustable rotation speed (5 to 240 rpm); sample volume 50 ml to 3 liters; plastic + glass safety coated glassware; larger bath has external insulation to prevent accidental contact with stainless steel reservoir; servo-jack raises and lowers evaporator effortlessly; dimensions 20 in. W x 15 in. D x 24 in. H; diagonal tap water cooled condenser for simple distillation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-c
