Usage Design:

Sampling or treatment bottle

Scale Marking:

Fill to line

Capacity Rating:

175.0 milliliters

Closure Type:

Cap

Scale Graduation Type:

Regular-single

Features Provided:

Sterile

Product Name:

Bottle screw cap 175ml regular single scale disp break-resist50s

Special Features:

Disposable, break-resistant

Material:

Plastic polystyrene

Shape:

Round

Supplementary Features:

Bottles used with medium containing mug or other fluorescing reagent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T116-b
