Overall Outside Diameter:

85.000 millimeters

Design Designation:

Associated research

Primary Container Type:

Any acceptable

Primary Container Unit Quantity:

1

Product Name:

Dish culture petri associated research plas d18 bottom quad plat 10s

Special Features:

For presumptive identification of an aerobic, nonsporeforming, gram negative rods; individually wrapped plates, 10 plates per pkg

Height:

12.000 millimeters

Material:

Plastic

Material:

Plastic

Style Designator:

Bottom section, quad-plate

Supplementary Features:

Contains kanamycin, indole, esculin and bile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24200
