For pharmacy medical medical material set d-306

**Universal Medical Device Nomenclature System Code:** 

12025

**Product Name:** 

Hood laminar flow lab

## **Special Features:**

Horizontal laminar flow hood; provides ascept ic environment to produce intravenous products reducing iatrogenic infections in treated patients; meets federal standard 209e for class 100 air and ies recommneded practice for laminar flow clean air devices; complies with ul 1262; nrtl listed with met; includes variable speed motor control, diffuser for supply filter, prefilters, fluorescent lighting, grounded 4 ft power cord

Shelf Life:

N/a

**Unit Of Measure:** 

--

**Demilitarization:** 

No

Fiig:

T107-f
