Overall Length:

5.433 inches

Capacity Rating:

3.000 milliliters

Features Provided:

Disposable and sterile

Primary Container Type:

Package

Primary Container Unit Quantity:

500

Scale Portion Outside Diameter:

4.7 millimeters

Product Name:

Pipet transfer plas m22 heat sealed 3ml cap disp ster i.W. 500s

Special Features:

Heat sealed to create liquid-tight storage vessels that can be safely frozen or transported; easier and safer to discard-incinerate or bag them as biohazard waste

Material:

Plastic

Style Designator:

Expanded mouth serological

Supplementary Features:

Disposable pipets individually wrapped

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24200
