Overall Length:

12.500 inches

Overall Height:

4.250 inches

Overall Width:

10.750 inches

Wattage Rating:

110.000 watts

Voltage In Volts And Current Type:

110.0 ac

Product Name:

Blood bank incubator gel sys110v ac 50/60hz 12.5x10.75x4.25in

Special Features:

Designed to utilize the principle of heat conduction by resistors within an aluminum block; used in the ortho id-mts blood bank gel system

Supplementary Features:

Weight is 11 pounds; electrical frequency is 50/60 hertz; working temperature is 10-30 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
