Overall Length:

15.750 inches

Overall Height:

10.750 inches

Overall Width:

13.250 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Operation Method:

Electric

Maximum Speed Rating In Rpm:

8500.0

Guard Bowl:

Not included

Product Name:

Centrifge laborotory 8500rpm 50/60hz 249v ac single phase

Voltage In Volts:

249.0

Phase:

Single

Special Features:

Microprocessor-controlled membrane touch panel for setting speed and run time; can handle a variety of tube sizes from 1.5 to 50ml; quiet operation, benchtop style

Supplementary Features:

Lcd digital readouts; cover interlock

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-c
