Overall Width:

26.750 inches

Overall Diameter:

23.500 inches

End Application:

For use for safe handling of biological organisms; used to protect personnel; for use in field laboratory iso-containers or field hospital tents.

Product Name:

26 3/4" wide 24 1/4" deep 47" high

Special Features:

Class ii type a hood with hepa filter; self-contained; can exhaust safely into workspace or be adapted for external exhaust; table top biological safety cabinet; works with field tables; includes: variable speed motor control, perforated filter diffuser/protector, cord with grounded plug and differential pressure gauge; has viewing panel; angled perforated stainless steel tray support; high intensity fluorescent light; removable stainless steel work tray; concave viewing panel

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T397-c
