Overall Width:
26.750 inches
Overall Diameter:
23.500 inches
End Application:
For use for safe handling of biological organisms; used to protect personnel; for use in field laboratory iso-containers or field hospital tents.
Product Name:
26 3/4" wide 24 1/4" deep 47" high
Special Features:
Class ii type a hood with hepa filter; self-contained; can exhaust safely into workspace or be adapted for external exhaust; table top
biological safety cabinet; works with field tables; includes: variable speed montor control, perforated filter diffuser/protector, cord with
grounded plug and differential pressure gauge; has viewing panel; angled perforated stainless steel tray support; high intensity fluorescent
light; removable stainless steel work tray; concave viewing panel
Material:
Stainless steel
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T397-c
