Overall Height:

110.000 millimeters

Overall Diameter:

63.000 millimeters

Usage Design:

Environmental sampling jar

Closure Type:

Screw cap w/liner

Features Provided:

Wide mouth

Product Name:

Jar environmental sampling with cap 110 by 63mm 24s

Special Features:

Ready to use sample storage container/jar; includes white polypropylene cap with polytetrafluoroethylene faced foamed polyethylene liner; screw cap size: 58 by 400mm; capacity: 8oz.; wide mouth; jar is made of wheaton 800 glass (meets usp type iii standards).

Color:

Clear

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T116-b
