End Application:

Automated surface observations system (asos)

Special Features:

Has tooled neck and mixing chamber; individually calibrated; matl and temp characteristics are printed in green on each flask; comes with polypropylene stopper; volume is 500 ml

Material:

Plastic, polypropylene

Material:

Plastic polypropylene

Style Designator:

Stoppered mouth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24200
