Mounting Type:

Bench

Voltage Rating:

110.0 volts

Prime Mover Current Type:

Ac

Product Name:

Food pathogen identifier pulsifier

Special Features:

250ml sample capacity; 15-180 seconds cycle time; 460x320x320mm exterior dimensions; 8.5kg weight; prepares food samples for analysis of pathogens employing standard bacteriological methods; agitates food at a high frequency producing a combination of shock waves which detaches bacteria into suspension; the result is a cleaner less particulate suspension making sample collection by pipette easier than current methods

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-I
