Overall Height:

353.0 millimeters

Capacity Rating:

250.000 milliliters

Calibration Function:

To contain

Features Provided:

Pour-out

Primary Container Type:

Case

Primary Container Unit Quantity:

1

Total Primary Container Quantity:

12

Product Name:

Cylinder lab single metric scale pyrex 250ml 12s

Special Features:

9pyrex 250ml graduated cylinder; calibrated to contain; lifetime red cylinder; white enamel scale and figures; used for delivering or containing liquids; a reinforced bead of glass near the top helps to reduce breakage, if the cylinder upsets; pkg/12

Material:

Glass

Material:

Glass

Style Designator:

Pour-out w/reinforced bead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
