Overall Length:

6.102 inches

End Application:

Unlimited uses

Capacity Rating:

7.500 milliliters

Features Provided:

Sterile and graduated to tip and disposable and bulb and individually sealed

Primary Container Type:

Any acceptable

Primary Container Unit Quantity:

1

Graduation Marking Method:

Molded

Product Name:

Graduated transfer pipet

Special Features:

3ml large bulb, flexible to u bend; shatterproof, nontoxic and inert; can be frozen in liquid nitrogen

Material:

Plastic, polyethylene, I-p-390, type 1, class I, grade 2

Material:

Plastic, polyethylene, I-p-390, type 1, class I, grade 2

Style Designator:

Transfer one piece w/molded bulb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24200
