**Overall Outside Diameter:**

3.500 inches

**End Application:**

Microbiological analysis

**Features Provided:**

Cover and disposable

**Primary Container Type:**

Bag

**Primary Container Unit Quantity:**

1

**Total Primary Container Quantity:**

1

**Product Name:**

Microfunnel filter and petri dish

**Special Features:**

Microfunnel filter ii; membrane gn-6 metrical white, gridded; funnel capaci type 100ml; individually bagged; pore size 0.45um

**Height:**

3.600 inches

**Material:**

Plastic cellulose acetate butyrate and plastic polyethylene

**Style Designator:**

Cylindrical w/cover

**Supplementary Features:**

Disposable filter funnel and petri dish all in one; includes cover, cylinder, membrane, support pad and base; preassembled; unique squeeze separation of cylinder from base allows easy access to membrane; preassembled and sterilized by gamma irradiation to eliminate the potential for toxic extractables associated with eto sterilization

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24200
